> Simulated review: this checklist was generated from your submitted text using simple rules. It is not expert peer review and does not verify scientific claims, data, or citations.

Editor's decision

Minor revision

Research contribution and overall clarity

This simulated review checked the provided text (6354 words) for common manuscript structure and reporting signals. It identified 0 major and 1 minor checklist concern(s). It does not verify scientific correctness, novelty, data validity, or the accuracy of citations.

Strengths

- The submission contains approximately 6354 words for the simulator to inspect.
- The report identifies common reporting items for the author to verify manually.

Concerns
